Introduction

Strategy Name: Income Distribution

Quantum Value: 100

Quantum Status: Celebration

Quantum Repetition: Now,Monthly,Per lifetime

Quantum Duration: Occasional, Minutes, Hours

Summary: No rich person ever said they do not understand money.

Within our personal perspective, it's mainly interesting how we spend that which we earn. It's earning first, spending last.

Why not: You're already set for life with 0 worries and 0 desires.

Why yes: You want to play the best money game that you can.

How do we do this?: We discuss and apply the listed processes.

What must be done?: Use a system to manage the information that is mentioned in the processes.

When can it be done?: Regularly from the comfort of home or just on the road.

Where can it be done?: Anywhere with internet and a smartphone or laptop.

Just you.

Whom to involve?:

Unless you want to share, then whomever.

How much costs and benefits?: \$ 7 for the report of the Strategy, It's Processes and Activities and Results.

\$ 77 for having me add those templates to your VobeSoft environment

\$ 111 for an hour + 1 hour bonus to run through these templates together and get you started
